

Smoke Outlook for 7/14 - 7/15

Alaska North

Issued at: 2019-07-14 06:50 AKDT

Fire

Cooler temperatures and recent rain have slowed fire growth. As conditions become more warm and dry the fires are expected to pick back up.

Smoke

Rain brought some needed relief from dense smoke that had accumulated throughout last week. New smoke production is expected to be reduced until warmer, drier weather causes fire intensity to increase again.

Other

For the area south of this map, see the Alaska South Smoke Outlook.

Daily AQI Forecast* for Jul 14, 2019

Station	Yesterday hourly	Sat 7/13	Forecast* Comment for Today -- Sun, Jul 14	Sun 7/14	Mon 7/15
